DETAILED ACTION

Claims 13-24 are pending and in condition for allowance.

Information Disclosure Statement

The information disclosure statements (IDS) submitted August 24, 2005 and March 24, 2006 were correctly filed. The submissions are in compliance with the provisions of 37 CFR 1.97. Accordingly, the IDS's were considered by the Examiner. Please refer to Applicant's copy of PTO-1449 submitted herewith.

Reasons for Allowance

Applicant's invention is drawn to a novel process for the synthesis of perindopril. There is no prior art which can be considered 'close' to Applicant's claimed invention. European Patent Publication No. EP 0308341, published March 22, 1998. The '341 publication is drawn to a process for preparing perindopril. However, the '341 publication takes a different route to the synthesis and does not teach or suggest the step of combining the novel compound of formula (II) with a compound of formula (III), as claimed in the instant application.

Since there is no art which anticipates or renders the instant Application obvious, **Claims 13-24** are ALLOWED.
